Pagrindinės savybės

- ✓ Classic design, modern sound
- ✓ FM/DAB+ digital tuning
- ✓ Bluetooth® 5.4
- ✓ User-replaceable battery

Aprašymas

Looks from back then, sound from now

Come for the classic design, stay for the warm sound. This portable radio brings back the rounded design and tactile volume knob of 1950s radios, and adds a dash of warm, surprisingly powerful sound from its 2.5" full-range driver. It's the perfect blend of legacy and innovation.

FM/DAB+ digital tuner with 20 FM and 20 DAB+ presets

This DAB+/FM radio gives you the widest selection of stations, and its telescopic aerial ensures crystal-clear reception. Digital tuning makes stations easy to find, and you can store 20 FM presets and 20 DAB+ presets. Your two favourite stations can be allocated to the quick-access buttons marked "1" and "2" on the front of the radio.

Bluetooth® 5.4 for a stable, longer-range connection

This classic-looking radio does more than just radio. Bluetooth® 5.4 connectivity lets you stream podcasts, playlists and more from your smart device to the radio. You'll enjoy a stable connection with high-quality sound, even if your playlist is streaming from the phone you left in another room.

Easily replaceable built-in rechargeable battery

With a built-in rechargeable lithium-ion battery that's easily replaceable when it reaches the end of its life, you can depend on The Janet radio for years to come! You get approx. 15 hours of play time from a full charge, and it takes around 3.5 hours via USB-C to fully recharge the battery.

Modern colourful display with adjustable brightness

The clear TFT display gives you station icons in full colour, plus artist and song information from the DAB+ station you're listening to. A digital clock shows the time, and you can adjust the brightness to suit your room or dim the display at night.

Dual alarms and Sleep Timer

If you like falling asleep to the sound of the radio, you can use the Sleep Timer to control how long the radio plays for—and set two alarms to ensure that you wake up. Alarms can use an alarm tone or the radio, and the volume starts low before gradually increasing.

GRS-certified recycled plastic. Responsible packaging

We're continually working to make our supply chain more sustainable and transparent. This clock radio is made with post-consumer recycled plastics, and our packaging uses FSC-certified recycled cardboard and soy-based ink.

3.5 mm audio-out for wired headphones

Want to enjoy your favourite radio show while your partner watches TV? A 3.5 mm audio-out jack means you can plug your wired headphones into the radio and keep your sounds to yourself.

Techninė specifikacija

Radio	
Radio type	Portable
