Aprašymas

Dynamic fast charger for dynamic charging: the charging adapter supports cutting-edge fast charging technologies and adapts its charging performance in real time to the current power demands of the connected devices - so you can charge via the socket with excellent battery protection

Dynamic Fast Charger with 40-60 W

Predictive charging instead of pure peak power: the dynamic charger continuously adapts its power to the charging process of the connected device - for an efficient energy flow and less heat generation

Components made from gallium nitride (GaN)

Powerful GaN charger: super-efficient with low heat development and all in a compact and lightweight design made possible by components made from gallium nitride

Powerful fast charger

Perfect for smartphones with high charging power: charge devices at high speed, to 60% in 30 minutes, ideal for devices of the latest generations since these often no longer come with chargers included when purchased

Suitable for many devices

Maximum compatibility: Power Delivery can be used everywhere, making it ideal for smartphones, laptops, AirPods, tablets and power packs

Supports USB Power Delivery 3.2 and Qualcomm® Quick Charge™ 3+

Supports modern fast-charging technologies for efficient and device-optimised charging

Safe charging

Intelligent chip set for safe charging: overloading, excess current and short circuit protection, IC with temperature protection

Saves the battery during the charging process

Optimized charging process saves the battery thus extending its service life

Automatic device recognition

Connected devices are automatically recognized and optimally charged
