Aprašymas

The AXAGON ADA-HCPD Hi-Res DAC AUDIO ADAPTER is the ideal accessory for your phone, tablet, laptop or desktop computer with a USB-C connector, providing you with the missing 3.5 mm audio jack. A big advantage is the integrated Power Delivery connector, which allows you to connect a charger and thus provides the possibility of powering the laptop. The adapter contains a high-quality DAC converter that offers up to 384 kHz / 32-bit sampling during playback, which ensures excellent sound quality.

The USB-C female connector is reserved only for charging of phone or laptops using Power Delivery 3.0 technology with a power of up to 60W. Plug a suitable charger into the connector and connect the soundcard to your phone. Forget about constantly unplugging your headphones to charge, enjoy uninterrupted fun listening to music, watching a movie or playing games.

This adapter is the optimal choice for mobile phones and tablets that are no longer equipped with a headphone jack and only have a USB-C port. Such devices include products from Samsung, Apple (iPhone 15 and later / iPad), Xiaomi, Honor and Huawei.

This sound card is optimal for lossless formats like FLAC, WMA, FLAC, WMA, WAV, APE, AAC nebo ALAC etc. Listening to music in the highest possible quality is available through premium accounts of platforms such as Spotify, Apple Music, YouTube Music and Amazon Music Unlimited. In addition, you can use this audio adapter for undisturbed viewing of other popular streaming services such as Netflix, Disney+, HBO Max, Amazon Prime or Apple TV+.

Thanks to the DAC converter, with the ADA-HCPD you can enjoy music in higher quality than using the standard headphone output of your laptop. It will also serve well as a replacement for the non-functioning original sound card in the laptop, thus replacing the headphone output or microphone input. An advantage is also the ability to connect a microphone or headset for communication services WhatsApp, Messenger, FaceTime, Skype, Zoom, MS Teams, Google Meet, Discord, and the like. You can also use it to connect your mobile device to the AUX output in your car.

A stereo 4-pole TRRS connector with automatic CTIA or OMTP standard detection is used to connect headphones. The strength of the cable is ensured by a high-quality nylon braid.

Input (connection to laptop):
- 1x USB 480Mbps male connector (USB 2.0)
