Aprašymas

MOVA ViAX 300 Robot Lawn Mower

UltraEyes™ 1.0 AI Dual-Vision System

At the core of the ViAX, our pioneering UltraEyes™ 1.0 technology provides millimetre-level perception and positioning that comprehends every corner of your yard through redefined smart lawn care with an AI-powered dual-vision system that combines visual processing and intelligent decision-making.

Auto Mapping That Works for You

ViAX learns the intricacies of your lawn in a flash. Using breakthrough UltraEyes™ 1.0 technology, it combines dual-camera 3D sensing with AI to automatically map between grass, boundaries, garden spaces, and more to effortlessly learn and work your entire lawn.

Dual-Map Management

Easily create and manage 2 independent maps, and customize distinct mowing plans for each area for maximum efficiency without the need for an additional robot mower.

No Fear of Getting Stuck:

Conquers lawn obstacles up to 4cm high and climbs slopes up to 40% with its front-wheel drive system, ensuring reliable operation across your lawn without getting stranded.

Freedom to Move:

Using its universal wheel, the robot mower freely flows across your entire lawn with precise maneuvering around narrow edges and tight corners to ensure maximum coverage.

Narrow Pathway Crossing:

UltraEyes™ 1.0 AI dual-vision system provides advanced spatial recognition, allowing ViAX to effortlessly navigate passages as narrow as 60cm while maintaining precise and stable mowing.

Smooth, Seamless Mowing

Enjoy truly uninterrupted lawn care with ViAX. Customize the low-battery setting to match your needs, and the mower will intelligently return to charge at the chosen threshold, resuming automatically once fully powered to get back into action.

Enhanced Mobility, Durability, and Lawn Care

ViAX's rugged off-road wheels deliver exceptional traction, preventing it from slipping or getting stuck on slopes and flat terrain, ensuring consistent, reliable mowing across complex terrain with minimal impact on your lawn.

Cut Free from Signal Limits

The UltraEyes™ 1.0 AI dual-vision system ensures precise mowing, such as when under trees or awnings, along narrow paths, or even without satellite signals, maintaining reliable and consistent performance in every scenario.

Terrain-Hugging Precision

Equipped with an advanced Floating Cutting System that intelligently adapts to the various terrains of your lawn, the dynamic blade suspension ensures smooth vertical movement and delivers consistent and precise mowing.

Tailored Cutting Heights

Get complete control over your lawn appearance by simply turning a knob to adjust cutting heights from 2–6cm.

Ultra-Smart AI Obstacle Avoidance:

UltraEyes™ 1.0 AI dual-vision sensing, featuring HDR color cameras with depth-sensing, enables the robot mower to distinguish grass from common obstacles, such as pets, furniture, yard tools, and people, ensuring safer and more precise mowing.

Animal-Friendly Modes:

Keep your lawn wildlife safe day and night, powered by intelligent detection and avoidance systems.

Artistic Mowing Patterns

Transform your lawn into an artistic masterpiece with the MOVAhome App. Choose from a selection of preset patterns like hearts or squares to turn your lawn into an expression of your creativity.

Peace of Mind with Advanced Anti-Theft Protection

When lifted, the robot mower sounds an alert and sends an immediate warning via the MOVAhome App.

Eco-Friendly:

An emission-free lithium battery provides a sustainable alternative to gasoline mowers. Using a custom charging period, charging is kept to a safe level and only fully recharges during designated times, creating a greener lawn care experience.

- UltraEyes™ 1.0: AI dual-vision system
- U-Shape Cutting for Efficient, Full-Coverage Mowing
- AI Detects 300+ Obstacles & Protects Pets
- Versatile Mowing Management via App
- 40% (22°) Slopes, 4cm Obstacles, and Narrow Paths
- Enhanced On-Boundary Edge Cutting
- TrueGuard™ Live Video & Patrol for Garden Security
- User-Friendly: Anti-Lift, Safety, Low Noise
- 3-Year Warranty Reliable Quality

Summary: MOVA ViAX 300 Robotic Lawn Mower. Type: Robotic lawn mower, Maximum lawn area: 300 m², Cutting width: 20 cm. Power source: Battery, Charging current: 3 A, Charging time: 65 h. Width: 595 mm, Depth: 380 mm, Height: 271 mm. Warranty period: 3 year(s). Country of origin: China | Vendor Homepage: <https://www.mova.tech/pages/how-to-use-robotic-lawn-mower-viax-250-300> | Type: Robotic lawn mower | Maximum lawn area: 300 | Cutting system: Rotary blades | Cutting width: 200 | Cutting height: 20-60 | Cutting clearance adjustment: Yes | Maximum cutting height: 60 | Minimum cutting height: 20 | Edge cutting function: Yes | Suitable for slope up to: 40 | Suitable for slope up to: 20 | Grass catcher: No | Drive

type: Front wheel drive | Lift sensor: Yes | Easy storage: Yes | International Protection (IP) code: IPX6 | Maximum working climb: 40 | Multi-Zone capability: Yes | Protection features: Waterproof | Smartphone/tablet remote support: Yes | Theft protection: Yes | Product colour: Black/Red | Power source: Battery | Charging current: 3 | Charging time: 65 | Battery capacity: 2.5 | Battery life (max): 50 | Battery life (min): 45 | Width: 595 | Depth: 380 | Base station: Yes | Height: 271 | Replacement blades: Yes | Manual: Yes | Power adapter included: Yes | Warranty period: 3 | Weight: 10000 | Package width: 869 | Package depth: 533 | Package height: 413 | Package weight: 19300 | Country of origin: China | Unit Calculated Weight: 20 | Battery weight: 250 | Battery: Lithium-Ion rechargeable | Product Net Weight: 9.4 | Unit Calculated Volume: 0.1996 | Units per Shipping Box: 1 | Unit Width: 42 | Units per Pallet: 0 | Shipping Box Height: 54 | Unit Depth: 88 | Unit Height: 54 | Name: GRASS MOWER ROBOT/VIAX 300 MVVV1200 MOVA
