Aprašymas

The AC7990 Full HD Conference Camera with integrated microphone upgrades your office meetings to the next level. It is the essential device for your video conference applications e.g. Teams, Zoom and Google Meet. This full HD camera provides excellent image and sound quality by the 2 Megapixel Sony CMOS sensor and two integrated omnidirectional microphones with a pickup range of 5 meters. The camera has a wide viewing angle of 105 degrees, EPTZ and image optimization. The audio is enhanced by features like noise reduction and echo cancellation. Use the enclosed remote control for operating the camera from a distance. In short, the AC7990 is essential for your video conference meetings by its excellent image and audio quality, wide viewing angle, broad audio pickup range and various mounting possibilities.

Excellent image by the 2 Megapixel Sony CMOS sensor and image optimization

With the 2 Megapixel Sony CMOS sensor you are ensured of excellent image quality during a video conference meeting. Because of the wide viewing angle of 105 degrees the camera oversees a large area in the meeting room.

Integrated microphones, noise reduction and echo cancellation for crystal clear audio

Next to excellent video quality, sound quality is of equal importance. The AC7990 camera has two integrated microphones with a 360 degrees audio pickup range up to 5 meters. The microphones have additional features such as noise reduction and echo cancellation for crystal clear audio.

Various mounting possibilities: monitor clamp, suitable for wall and tripod mounting

The AC7990 conference camera can be mounted in various ways. Clamp the camera on top of a monitor or TV with the integrated clamp. Place the camera on the desk. Mount the camera to the wall or place it on a tripod.

Easy controllable via the enclosed remote control

Mute the microphone or electronically zoom in/out, pan, tilt and adjust the settings with the enclosed remote control.

Suitable for the most used video conference applications

Use the camera during video conference meetings with the most common used video chat apps e.g. Teams, Zoom and Google Meet.
