Pagrindinės savybės

- ✓ Whether as a camera handle or table tripod, in portrait or landscape format: the powerful magnet holds the mobile phone securely in place while the handle allows relaxed photography, filming and even film-watching - perfect for blogs, vlogs, social media and anyone who likes to keep things flexible and practical
- ✓ Selfie photos, videos and blogs anywhere: perfect for hand luggage
- ✓ Ergonomic grip: selfie-holder fits securely in the hand
- ✓ Relaxed handling, e.g. for selfies and group shots, concerts, etc.
- ✓ Magnetic holder for every setting: streaming, gaming, cooking and DIY, indoors and out
- ✓ Compact design for space-saving transport and fast attachment
- ✓ Remote control: detachable Bluetooth trigger for the smartphone, can also be used for tablet cameras
- ✓ Separate On/Off switch: inserted correctly, the head remains free even in the smartphone handle
- ✓ For selfies with the mobile phone handle: shutter release directly above the handle next to the thumb
- ✓ Shutter release without an app: connection via Bluetooth directly with the smartphone

Aprašymas

Whether as a camera handle or table tripod, in portrait or landscape format: the powerful magnet holds the mobile phone securely in place while the handle allows relaxed photography, filming and even film-watching - perfect for blogs, vlogs, social media and anyone who likes to keep things flexible and practical

Camera grip for smartphone

The right smartphone grip: mobile phone holder with grip for taking photos and filming like with a professional camera - less wobbling but comfortable and safe handling

Magnetic phone grip

Practical and safe: simply dock your mobile phone onto the magnetic handle, e.g. for MagSafe and Qi2-enabled smartphones

Suitable for every smartphone

Easy to upgrade: can also be used for mobile phones without a built-in magnet, simply attach the magnetic ring to the mobile phone or in the case - suitable for any smartphone with or without a case or protective cover

Versatile mobile phone holder

Set up, mount, focus: attach your mobile phone to a selfie stick or tripod using the grip, use it immediately as a desk stand at the perfect angle for videos and conferences, or take the classic handheld selfie — the camera grip for your phone makes it all easier.

360° swivel holder

For portrait or landscape format: the mobile phone can be rotated 360° in its holder for optimal alignment of the smartphone — whether in your hand or on a table

Universal 1/4" thread for tripod mounting

A firm footing on location: thanks to the 1/4" thread, can be mounted onto all common tripods

Small and lightweight

With lightweight luggage: the compact handle for your mobile phone is always with you — thanks to the 1/4" thread, it easily replaces the special smartphone holder for the tripod, ideal for travelling
