Pagrindinės savybės

- ✓ Perfect lighting and quick to set up and dismantle wherever you want it: mobile photo studio with LED ring lighting in travel format for the perfect illumination in product photography, ideal for e.g. product images in an office presentation, your own online shop or e.g. on eBay, Amazon, Etsy, etc
- ✓ Fast light cube setup: simply apply hook-and-loop fastener to the edges and attach them to each other
- ✓ Great lighting: integrated ring light with 10.2" (ø 25 cm) and 128 LEDs on the top of the light cube
- ✓ Various image angles possible: capture angle from the front, side and - thanks to the fold-up opening on top - for the central top view
- ✓ Gently sloping top edge: against the direct view into the light
- ✓ Cable remote control for LED ring light: easy handling and long range thanks to 190 cm cable length
- ✓ Flexible power supply: USB-A cable for convenient power connection, e.g. via a power pack, USB charger or power strip with USB-A socket
- ✓ Reflective insides: silver coating on the entire inner surface of the light cube
- ✓ Perfectly staged: position the object being photographed perfectly and illuminate it without shadows
- ✓ More professional results: no hard shadows or interfering reflections

Aprašymas

Whether in the online shop, on social media or on the website: Professional product photos provide decisive added value for making the purchase decision. With the mobile photo studio, you can easily set the perfect scene for your products.

Mini photo studio in a foldable box

Foldable photo box: this little mini studio can be folded down to a trim 3 cm in height and takes up barely any space when on the move

Photo studio set

Light box with accessories: the little photo studio including LED ring light, diffuser fabric and colour backgrounds contains everything you need for good product photography

Take product photos cheaply and easily

Take them easily yourself: great product images even without any in-depth knowledge of professional product photography - and without any major costs

3-stage colour temperature

From warm white to daylight bright: control the colour temperature in 3 stages using the cable remote control for optimised and even lighting

10-stage light intensity

From radiantly bright to pleasantly dimmed: the light intensity can be adjusted in 10 stages

Economical and durable

LED lights are economical and thus more durable than conventional lamps

6 coloured backgrounds

Always the right mood: the mobile photo studio set for product photography contains 6 backgrounds to ensure the right colour for every scenario, be it classic white, sleek beige or green

Portable photo studio

Photo studio to go: the light box can be packed up extremely small for transport and storage and is a piece of essential equipment for all online traders and photographers who like to be flexible and practical
