Aprašymas

In a nutshell

Take advantage of T128's dynamic Force Feedback and its 2-pedal pedal set to experience realistic driving sensations. Get started with manual gear shifting with TH8S Shifter Add-On and its "H"-pattern shift plate (with 7 gears plus reverse gear), to easily adapt to all types of games and vehicles.

UNDER THE HOOD

VERSATILE RACING PACK

T128 Shifter Pack is a combination of the T128 racing wheel and TH8S Shifter Add-On shifter, for an immersive and versatile driving experience. Its “H”-pattern shift plate (with 7 gears plus reverse gear) easily adapts to all types of games and vehicles (racing, trucking, farming).

IMMERSIVE FORCE FEEDBACK

T128 and its HYBRID DRIVE Force Feedback allows gamers to really experience the fun and intuitive sensations of driving. Feel the weight of each vehicle, the bumps and impacts, the loss of grip in turns, and the types of road surfaces — directly in the wheel, for immersive racing that awakens your driver instinct.

ALL-TERRAIN RACING WHEEL

T128 adapts to all driving styles thanks to its 270° to 900° rotation angle and its round, lightweight wheel rim that takes full advantage of all the Force Feedback’s power. The T2PM pedal set, alongside the racing wheel’s magnetic paddle shifters, engine speed LEDs and 13 action buttons, lets you free yourself from having to use a gamepad.

RESPONSIVE GEAR SHIFTING

With its 1.6” / 4 cm metal shift lever, this “short” shifter is incredibly responsive for clean, precise gear shifting. The ergonomic “sport-style” shift knob allows for easy handling, helping you stay in control in all situations — even off-road!

SURGICAL PRECISION

TH8S Shifter Add-On features frictionless H.E.A.R.T technology, ensuring the same level of precision throughout the product’s lifespan.

BUILT-IN CLAMPING SYSTEM

T128 and TH8S Shifter Add-On feature a sturdy clamping system for all types of tables, desks and supports (0.04–1.5” / 0.1–4 cm thick). Clamping requires no tools, for quick and easy assembly and disassembly.
