Aprašymas

As an advanced model of the RICOH THETA series of 360-degree cameras able to shoot 360-degree still images and videos in a single shot, this new model is equipped with a large touch screen display, achieves high-resolution images and has been designed in pursuit of usability and outstanding quality.

Feature

Striving for ease-of-use with amazing high performance.

The first time a large 2.25-inch LCD touch panel has been equipped on the THETA series. Enables you to check images you took right there in minutes. Detailed shooting settings can be made on the touch panel without using the smartphone app.

Record natural 360-degree images using up to approximately 60MP (11008 x 5504, 11K) still image shooting and high-precision stitching.

Supports an external memory card in addition to the internal memory capacity. Also supports shooting for a long period of time because the battery

is replaceable.

Shoot incredibly realistic spherical images and videos using video shooting with improved image stabilization at up to 5.7K, 30fps video.

Achieves wireless high-speed transfer of still images and videos to a smartphone.

Due to the built-in GPS (QZSS) and A-GPS, accurate position information can be acquired to embed into 360-degree photos.

Design

Enable everyone to easily enjoy 360°.

Has a magnesium alloy body that is both durable and feels high-end.

Achieves a thin and lightweight body while having a 2.25-inch TFT color LCD (with an auto brightness adjustment function).

Creativity

Create your own images using editing functions.

5.7K video makes the world of VR more real.

Easy to put the finishing touches on eye-catching work using the dedicated editing app THETA+.

Share

Use the dedicated apps to easily share your work from anywhere with people all over the world.

Upload your work to theta360.com, a website dedicated to sharing 360-degree images. Anybody can easily publish 360-degree images throughout the world.

A convenient dedicated app is available for both the PC and smartphone. Enjoy the world of RICOH THETA even more.

360-degree photos can be uploaded as is to Facebook and LINE. Easy to share the 360-degree world with friends.

Post images and videos to Instagram and Twitter after processing them in THETA+.

Link to various Cloud services and solutions that utilize 360-degree images, such as the virtual tour service.

Advanced

Expand your THETA.

5.7K video makes the world of VR more real.

Easy to put the finishing touches on eye-catching work using the dedicated editing app THETA+.

Techninė specifikacija
