Aprašymas

Active stylus pen

Active stylus pen for your iPad, enabling you to write, draw, and more

Through thick and thin

Whether you want to draw, sketch, colour, take notes, or write; the Kyna can do it all! The ultra-thin tip offers pixel-perfect precision, along with low latency that makes this feel like a real pen. What's more, it's even tilt sensitive and has palm rejection to ensure no input from hands while you're using it.

Write on!

Forget running out of ink, this active stylus pen can write or draw endlessly thanks to the built-in rechargeable battery and included USB-C-C cable. Offering up to 10 hours of non-stop use on a single charge, it even comes with two replacement nibs so you can write, draw and more to your heart's content.

iPad iPal

The Kyna and the iPad were made for each other – literally. Compatible with all iPads from 2018 onwards, including the iPad Pro, this pen works just the way you need, and even magnetically attaches to your iPad to ensure easy transport and storage.
