## Aprašymas

Industry-leading projector mounts with fine tune technology for ceiling installations.

The M Universal Projector Ceiling Mount 500-800 with Fine tune give you easy placement of your projector in the most discreet setting possible. You can orient and incline according to several axes. The model features cable-masks, height adjustment, and easy fine tune settings adjustments, once the projector is in place. This projector mount has a minimum of surface area to the projector good for not trapping heat close to your projector thus not cutting your projector lamps lifetime.

The built in fine tune technology provides easy fingertip positioning capabilities which automatically adjusts the projectors position. That way you can always be sure to get a well balanced position for your projector after installing it. This does not only save installation time but also make room

for possible changes of what projector is being used or how your projection screen is positioned, perfect if you anticipate changing projectors in the future. The arms holding the projector are articulated and telescopic to adopt to almost all projector models.

Fine tune the projectors position with millimeter precision.

Multibrackets Projector Ceiling Mount series 200/ 500-800/ 600-1000/ 900-1600/ 1600-3000 with Fine tune offers an industry-leading projector mount for ceiling installations. The series minimizes installation time, simplify maintenance and offers a sought after fine tune adjustment alignment with 3-axe angles. This model also offers the an anti-theft security feature.

There is a reason why this series of projector mounts quickly has become one of Multibrackets top selling product lines.
