Pagrindinės savybės

- ✓ VR headset
- ✓ PlayStation VR2 Sense controller (L) / (R) with attached straps
- ✓ USB cable (for controller pairing and charging)
- ✓ Stereo headphones
- ✓ Three pairs of earpieces
- ✓ Printed materials

Aprašymas

The next generation of virtual reality gaming

Innovative PlayStation VR2 Sense™ technology brings emotion and immersion to life through subtle headset vibrations, 3D audio technology and intelligent eye tracking, combined with finger touch detection, haptic feedback and adaptive triggers from the PS VR2 Sense controller.

From tiny details to wide-open vistas, from realistic facial expressions to living, breathing futuristic worlds, the next-gen processing power of PlayStation®5 console together with new optical features let you witness every moment in stunning detail.

Deeper details

Two 2000x2040 OLED displays deliver incredible 4K HDR visuals at up to 120fps, for 4x the resolution of the original PlayStation®VR.

Intelligent eye tracking

Express yourself to fellow players in new and lifelike ways with eye tracking1 that simulates heightened emotional responses from your in-game avatar, giving an enhanced sense of realism and personal interactions to co-op games or team chats in multiplayer games.

Incredibly sharp focus

Relish the details as foveated rendering brings in-game areas that your eyes focus on into amazing graphical fidelity—while making sure game performance stays stable.

Explore amazing worlds

Feel an incredible sense of presence in virtual game environments with a 110-degree field of view, and an adjustable Fresnel lens that allows you to customise spacing between lenses to match your eye position for an optimal onscreen image.

Sense a character's presence as they whisper in your ear, locate friends and enemies by their gunfire or footfall, and surround yourself with incredibly realistic soundscapes, as in-game audio dynamically adapts to your position and head movements with Tempest 3D AudioTech.

Feel a new dimension of play

Thrilling new worlds come to life in uniquely immersive and emotional ways with PlayStation VR2 Sense™ technology.

Headset feedback

Subtle, responsive headset vibrations from a single built-in motor create a unique, intelligently tactile element to gameplay, from the rush of an arrow flying past your head to the thrust of a speeding vehicle.

Introducing the PlayStation VR2 Sense controller

Interact with virtual worlds in amazing new ways with haptic feedback, adaptive triggers, precision tracking and finger touch detection - all integrated into a unique ergonomic design.

Haptic feedback

Feel realistic, detailed responses to your in-game actions. From subtle, precise vibrations to intense pulses, a vast range of sensations in the game world can be delivered to your hands, letting you experience PS VR2 games in an incredibly tactile new way.

Adaptive triggers

Feel the tension in your bowstring, the sudden kick of a weapon jam or an object crumple as you crush it in your hands with adaptive triggers that add dynamic resistance in each controller.

Finger touch detection

Reach out and touch the virtual world around you with controllers that detect the placement of your fingers—even when you're not pressing a button.

New worlds are waiting

Smart design

The world is in your hands with the innovative new PS VR2 Sense controller's orb design that empowers you to make precise movements and gestures with both hands.

Precision control

Take hold of your in-game gear and interact intuitively with the virtual world around you, using analogue sticks and action buttons, along with a 'grip' button to grab objects in-game.

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Inside-out tracking

Explore new worlds with freedom thanks to four tracking cameras built into the headset, that will capture every movement without the need for an external camera.

Enhanced comfort

Stay in the game with a light, balanced Fresnel lens, vents to allow airflow and reduce fogging, and adjustable headset straps to help find your perfect fit.

Jump right in

Simply plug the single USB cable into your PS5 console and get started. Customise your play area, dive into a game, enjoy non-VR content in Cinematic Mode, or check what's happening in the real world at the touch of a button with the See-through View function.

PlayStation VR2

Escape into worlds that feel, look and sound truly real as virtual reality gaming takes a huge generational leap forward with PlayStation VR2.

Techninė specifikacija

Features	
Type	Dedicated head mounted display
Product colour	Black, White
Viewing angle	110°
Adjustable interpupillary distance	Yes
Coloration	Monochromatic
Field of view (FOV) angle	110°
Maximum refresh rate	120 Hz
Adjustable straps	Yes
Recommended gender	Boy/Girl
Brand compatibility	Sony
Display	
Display type	OLED
Display resolution	2000 x 2040 pixels
Sensors	
Proximity sensor	Yes
Accelerometer	Yes
Gyroscope	Yes
Audio	
Built-in microphone	Yes

Ports & interfaces	
Card reader integrated	No
USB connector type	USB Type-C
Headphone out	Yes
Power	
Power source type	Battery, DC
Input device	
Controller type	PlayStation VR2 Sense controller
Connectivity technology	Wireless
Controller interface type	Bluetooth
Gaming platforms supported	PlayStation 5
Number of game controllers included	2
Packaging content	
Cables included	USB Type-C
User guide	Yes
Quantity per pack	1 pc(s)
Matmenys ir svoris	
Matmenys (I × P × A)	19,00cm × 43,00cm × 26,00cm
Svoris	3,38kg
