Aprašymas

Premium connection Micro-B USB <-> USB-A Data and Charging AXAGON BUMM3-AM10AB SPEED USB 3.0 cable with Micro-B USB male and USB-A male connectors. The cable is designed for fast data transfers and external hard disks and other mobile device charging. It supports up to 5 Gb/s data transfer and charging with current up to 3A.

Durable data and power cable with extended service life is equipped with metal terminals, connectors with a nickel-plated surface and gold-plated contacts. Cable conductors are made of Tin-plated oxygen free copper. High-quality cable insulation, made of flexible TPE, guarantees maximum durability and also maintains sufficient flexibility. The final strength of the cable is provided by the nylon braid. The bonus is a practical strip for easy packing of the cable.

Power cables 22AWG (lower number = larger cross-section and lower wire resistance) guarantee fast charging of phones and other mobile devices. Data wires 30AWG together with high-quality shielding, ensure reliable data transmission. Triple shielding protects transmitted signals from adverse interference.

Durable cable gland significantly reduces dangerous cable bending. The cable life is extended to more than 5000 standard bends. The mechanical resistance of the cable is also increased by the aluminum terminal covers.
