Aprašymas

The **ACGPSA MikroTik** is a high-performance antenna designed to enhance your wireless connectivity. With a remarkable **gain factor of 26 dBi**, this product is engineered to provide superior signal strength and coverage, making it an ideal choice for both professional and personal use. The sleek **black color** adds a modern touch to your networking setup, ensuring it blends seamlessly with your equipment.

Measuring at a compact size of **46.5 mm in width, 46.5 mm in depth, and 12.5 mm in height**, the MikroTik ACGPSA is designed for easy installation and integration into various environments. Its small footprint allows for versatile placement options, whether in a home office or a larger commercial space. This antenna is part of the MikroTik product line, known for its reliability and performance in the networking industry.

With a low **power consumption of just 8 mA**, the MikroTik ACGPSA is not only efficient but also environmentally friendly. This feature ensures that you can maintain high performance without significantly increasing your energy costs. The antenna is suitable for a wide range of applications, including point-to-point connections and long-range wireless communications, making it a versatile addition to your networking arsenal.

In summary, the **Mikrotik ACGPSA** is a top-tier antenna that combines high gain, compact design, and energy efficiency. Whether you are looking to improve your home network or enhance your business's wireless capabilities, this product offers the technical specifications and reliability you need. Trust in the quality of MikroTik, a leading manufacturer in the networking sector, to deliver exceptional performance with the ACGPSA model.
