Pagrindinės savybės

- ✓ HDMI 19pin Type-A female to DVI-D 24+1 male (18:1 pinout)
- ✓ 180° swivel adapter
- ✓ Supports Single Link resolutions (digital signal only)
- ✓ Supports digital audio signals. Note: As a rule, the DVI connector does not transmit any audio signals. Only a few graphics chipsets support output of audio signals via DVI via an additional internal audio cable. In these cases, audio signal transmission is supported
- ✓ 4K2K @30Hz (3840*2160) compatible
- ✓ Gold-plated contacts for high-quality digital connection
- ✓ Resealable blister-PE packaging with EAN code

Aprašymas

This InLine® HDMI-DVI adapter can be used to connect various DVI video sources with a digital signal, such as set-top boxes, DVD players, BlueRay, graphics cards and others to HDMI-cabled audio/video display devices such as monitors, projectors, digital TVs and more. Tested on a Display with 4K2K @30Mh resolutions, this adapter also finds applications in Audio / Video (A/V) systems, Home Entertainment, Digital Signage, digital signage, professional and industrial videoposters or digital signage in environments such as conference rooms, auditoriums, airports, stadiums and more. This special HDMI adapter can be swivelled up to 180° by means of a mechanical joint, thus facilitating installation in situations where the distance between the TV or monitor and the wall is narrow.

Techninė specifikacija

Ports & interfaces

Connector 1	DVI-D male
Connector 2	DVI
Connector 1 gender	Male
Connector 2 gender	Female
Connector contacts plating	Gold
