Aprašymas

HDMI cable, InLine®, 19-pin M/M, gold-plated contacts, blackHDMI 1.3:

This InLine HDMI cable with specification 1.3 is suitable for HD content up to 1080p. If no higher resolution is supported by the connected devices,

this cable is sufficient to connect a TV or monitor to a Blu-ray player, games console, computer, notebook or streaming device in HD quality.

Business: Use this cable to connect your PC or laptop to a monitor. Everyday computer tasks or simple multimedia applications such as watching videos or editing images are fully supported.

Television: Connect your TV to a cable and satellite receiver to watch a wide range of channels in high quality (Full HD).

Playback devices: Full HD monitors, projectors and televisions.

Gold-plated contacts

The gold-plated plugs improve the conductivity, durability and corrosion resistance of the InLine HDMI cable. The risk of oxidation or corrosion is significantly reduced. This increases the long-term reliability of the connection, e.g. even in environments with higher humidity. Gold-plated contacts adapt better to the connections and are less susceptible to abrasion and damage when plugging and unplugging. In addition, the higher conductivity can improve signal transmission and therefore picture and sound quality, especially over longer cable runs.
