- ✓ Fully washable
- ✓ Easy handling
- ✓ Precision trimming kit
- ✓ Protective Guard System
- ✓ Easily trim unwanted hair
- ✓ PrecisionTrim technology
- ✓ Travel and storage pouch
- ✓ 2-year worldwide guarantee

Aprašymas

Ultimate comfort, without pulling

Trim nose, ear, details and eyebrows with total comfort

The Philips nose trimmer series 5000 gently trims nose, ear, eyebrow and detail hair. The new PrecisionTrim technology and the Protective Guard system have been designed to ensure an easy and efficient trim without all the pulling and tugging.

Trim nose, ear, details and eyebrows with total comfort

Gently remove unwanted nose and ear hair efficiently. Ensure nostrils are clean before use, carefully insert the trimmer inside your nose no more than 0.5 cm and slowly circulate it. When trimming ear hair, ensure ears are free of wax. For brow hair, slide one of the two combs (3 and 5 mm) into the grooves and trim with light pressure moving against the hair growth for an even cut to the length you want. For detail trimming, use with or without the detail trimmer comb included in the pack. Adjust the angle to trim, shape and define edges of your beard or goatee with the precision styler head.

Our protective skin guard provides an easy and safe trim

Our Protective Guard System provides a cover over the blades designed to ensure they will never be in contact with your skin while safely guiding your hair towards the cutting element. The Protective Guard has been engineered to make trimming comfortable and safe, minimising missed hair whilst protecting against hair pulling, tugging or nicks and cuts.

Effortlessly trim hair with a fast-moving dual-sided cutter

Our innovative cutter is dual-sided to ensure all hairs are cut quickly and effortlessly from any angle and in any direction. The blades are made of durable stainless steel and designed to last.

Precision detail attachment and comb included

The detail trimmer helps you trim and shape your facial style (stubble, goatee, sideburns, neckline or moustache) with high control and visibility.

Textured handle with on/off sliding switch

Easily turn on/off your device with one hand. The textured handle gives you the best hold, even when wet, for better control when you operate your trimmer.

Fully washable for easy cleaning

This trimmer is water resistant, so it is easy to clean: just rinse it under the tap.

AA battery included in the pack

This trimmer runs on one AA battery that is included in the box, so your trimmer is ready to use right away. To change the battery, open the device by gently turning the bottom part to the left. Pull the bottom towards you to reach the battery compartment.

Soft pouch included

Use the convenient pouch for storage or travel. It holds your trimmer and all its accessories when you're on the go.

Built to last

All of our grooming products are built to last and engineered to give a reliable performance, time after time. This trimmer comes with a 2-year worldwide guarantee.

Techninė specifikacija
