Pagrindinės savybės

- ✓ Innovative 360 Blade
- ✓ Dual-sided blade
- ✓ Wet and dry
- ✓ Style with fewer strokes
- ✓ Blade that doesn't fade easily
- ✓ Fits with all OneBlade handles
- ✓ Unique OneBlade Technology

Aprašymas

Trim, edge and shave any length of hair effortlessly

The innovative 360 Blade can flex in all directions to adjust to the curves of your face. The design enables constant skin contact and control. Easily trim and shave hard-to-reach areas — with just a few strokes and great comfort.

Trim, edge and shave any length of hair effortlessly

Designed to cut hair, not skin

Unique OneBlade Technology

The Philips OneBlade is a revolutionary new hybrid styler that can trim, shave and create clean lines and edges, on any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter that moves up to 12000x per minute, which powers through any length of hair.

Fits with all OneBlade models except for QP15XX

Fits with OneBlade (QP25xx), OneBlade (QP26xx), OneBlade Pro (QP65xx), OneBlade Pro (QP66xx)

Blade that doesn't become blunt easily

Durable stainless steel blade that lasts up to 4 months of use to keep that fresh feel.

Innovative 360 Blade

Moves in all directions to maintain constant skin contact while ensuring control at all times, even for the most difficult-to-reach areas.

Style with fewer strokes

And more comfort compared to the Original blade (QP210).

Dual-sided blade

Create precise edges & sharp lines with the dual-sided blade. Cuts both up and down. Get the perfect lines in seconds with the dual-sided blade, enabling you to see every hair you're cutting.

Wear out status

An eject icon will appear on the blade when the blade is worn out.

Wet and dry

OneBlade is water resistant, so it is easy to clean: just rinse it under the tap. You can also shave with or without foam - whatever you prefer.

Techninė specifikacija

Features
