Aprašymas

Switch on a flawless glow like Jessica Alba, our new Beauty ambassador

How to nail that elusive, pure, youthful, flawless complexion that all the beauty editors are talking about this season with the latest, innovative beauty technology. Welcome to the future of a flawless glow... at the flick of a switch.

"It doesn't matter whether you're going for a red carpet look, or want a day without any make-up on; we need to be able to count on beautifully cleansed skin as our foundation. Braun Face gives women the confidence and freedom to either wear make-up or not."

Jessica Alba,
Braun Beauty Ambassador

Epilate with absolute precision at the touch of a button

You want to remove hair on chin, upper lip and forehead or maintain your eyebrows?

On these most delicate areas, precision is key.

The sleek and compact design of the Braun Face lets you handle it like a mascara for absolute control and precision.

It removes hairs from the root for up to 4 weeks of hairfree skin.

So gentle, you're done before you know it.

The extra slim head has 10 micro-openings that gently capture even finest hairs down to 0,02 mm. And with 200 plucking motions per second it is considerably faster and more thorough than manual tweezers.

Cleanse your face 6x better than by hand

Gently restore amazing purity and glow of your facial skin by removing make-up and impurities. With its hundreds of micro-oscillations, the Braun Face cleansing brush works 6 times better than manual cleansing.

It exfoliates, removes dead skin cells and encourages skin rejuvenation.

Make pore deep cleansing part of your shower routine

Because Braun Face is 100% waterproof you can make gentle and thorough cleansing a natural part of your shower routine. You can remove the bad to let in the good and prepare your skin to better absorb your creams or lotions.

No surprise as it has been tested with dermatologists and is suitable even for sensitive skin.

A new brush every 3 months for skin like new.

Your most precious skin deserves the best possible treatment. So every 3 months you will want to replace the brush with a new one to restore performance back to new.

Techninė specifikacija
