Aprašymas

Advanced Triple-Time Cutting Power

Triple cutting power with ultra-torque motor delivers a clean shave with reduced irritation. Generates up to 270g·cm of torque, delivering power equivalent to three times that of the industry-standard motor, and effortlessly cuts through coarse and dense beards for an efficient, close shave.

Multi-Angle Alignment for a Close Shave on Every Contour

Designed to contour precisely to difficult areas, S7 ensures thorough coverage and delivers a clean,effortless shave even in hard-to-reach spots.

Intelligent Beard Sensing with Adjustable Performance

S7 is equipped with a hair density detection system that intelligently adjusts its performance to suit different beard types. For dense, coarse beards, the system automatically increases power and speed to deliver stronger cutting force, while for sparse, fine hairs, it activates a gentle mode to help with precise and skin-friendly grooming.

Vibration-Dampening Technology

Crafted with a full-metal body, S7 effectively reduces motor resonance and dramatically reduces vibration and noise. It delivers a smooth and comfortable shaving experience with less friction on the skin.

Long-Lasting Power & Fast Charging

S7 ensures lasting performance wherever your travels take you.

IPX7 Full-Body Waterproofing

Fully waterproof. Suitable for both wet and dry use.

Intelligent Comfort, Exquisite Choice

Elegantly packaged, it makes S7 a sophisticated and practical gift.
