Aprašymas

The Braun TexStyle 3 has been upgraded with a fresh new look, more power and better steam performance. Now featuring the world's first FreeGlide 3D technology for 360° glideability.

The world's first FreeGlide 3D technology

Inspired by snowboard design, our patented upward curving FreeGlide 3D technology guarantees 360° glideability. Glide backwards over any obstacles, such as buttons, pockets and zippers. Since there is no need to constantly adjust the fabric to avoid new wrinkles, time and effort are saved. Ironing has never been easier, faster or more efficient.

Great performance

The excellent combination of 2400 watts with steam emission renders impressive, highly powerful output to eliminate stubborn wrinkles quickly and easy.

Easy Refill 270ml

For longer ironing autonomy.

Precision tip

The triangular shaped precision zone at the tip of the iron allows easy removal of the toughest wrinkles from hard to reach areas like collars and seams.

SuperCeramic coating

High quality ceramic soleplate. 60% more durable soleplate* * Vs Braun TS 345 coating

Rapid heat up

No need to wait long before starting to iron.

Self Clean

Easy to use and convenient system to clean the soleplate from scale particles.

Digital anti-drip

No more annoying water stains and leakage during ironing. Thanks to the digital technology in the CareStyle series, the temperature is controlled far more effectively than with a traditional thermostat – which means you have to iron less because there is no more annoying water coming out of the soleplate to stain or wet your clothes while ironing.

Auto-off

The auto-off function automatically turns off the steam iron after 8 minutes in the vertical position or after 30 seconds in the horizontal position. This feature not only ensures safety, but also saves energy for you. Whether you are just taking a break or rushing out the door, you never have to worry again about hot irons home alone - trust in the Braun auto-off function to take care of everything for you.
