Aprašymas

Provides quick, accurate blood pressure and pulse rate readings from the comfort of your home, the Pregnancy Accurate Automatic Arm Blood Pressure Monitor uses a clinically proven algorithm to deliver real-time results.

Designed to work both in and out of pregnancy and during stages of pre-eclampsia, this device saves 100 memories for up to two people. With irregular heartbeat (arrhythmia) detection, heart rate variability monitoring and automatic date/time stamps, this blood pressure monitor makes it simple and straightforward to keep track of your blood pressure, whether you've got a baby on board or not.
