Aprašymas

BEBIRD Earsight Ultra Camera Otoscope

The Bebird Earsight Ultra is a comprehensive home ear care and cleaning kit that combines a 20 MP camera, 5G video streaming, a flexible 3.6 mm tip, and 3.0 endoscopic technology inspired by hospital-grade solutions. The device features a short 7 mm focal length, a depth of field of 5–25 mm, and a wide 77° field of view, allowing you to closely examine the inside of the ear or other hard-to-reach areas. It's a family kit for daily hygiene, regular check-ups, and a more informed assessment of the condition of the ear canal, nose, or mouth!

A clear image that gives you greater control

One of the biggest advantages of the Bebird Earsight Ultra is the ability to see what usually cannot be assessed with the naked eye. The 20 MP camera with 5G transmission allows you to view a clear image on your smartphone screen in real time, making it easier to check the condition of your ears and clean them. A short 7 mm focal length, a 5–25 mm depth of field, and a 77° field of view make it easier to locate earwax, small debris, or other abnormalities.

Flexible tip for curved and narrow ear canals

The device uses patented Flexible Twist Tube technology and a flexible design that allows it to better adapt to curved and narrow ear canals. The slim 3.6 mm tip is designed to reach areas where rigid accessories can be less comfortable and less precise. Additionally, the product stands out for its impressive durability (withstanding up to 1,000 bends), which translates to greater longevity during regular use.

Safer contact with the ear and greater peace of mind during cleaning

The otoscope is coated with medical-grade silicone, as confirmed by SGS certification. This design makes the device pleasant to the touch and provides a greater sense of safety when inserting the tip into the ear.

Precision tweezers for removing stubborn earwax

One of the standout features of the set is the patented, detachable precision tweezers, designed to remove more stubborn earwax. Their design allows for effective yet gentle cleaning of the ear canal without touching its walls or coming into contact with the skin. This method provides greater control over movement, helps to grasp debris accurately, and reduces the discomfort often associated with less precise methods. It is also an excellent solution for people with sensitive ears.

Tips for different types of debris

The set includes various types of tips, so you can easily adapt your cleaning method to the situation. For removing regular earwax, spoons of varying degrees of hardness are provided, allowing you to match them to your preferences and ensure comfort during cleaning. You also have access to disposable sponge tips that absorb oily earwax, as well as disposable adhesive tips designed for effectively removing fine debris.

A set for 5 people and improved hygiene

The Bebird Earsight Ultra otoscope was designed as a solution for the whole family. Tip sets in five different colors ensure that every household member can have their own accessories. This solution also reduces the risk of spreading dirt and bacteria. It's a great option for families who want to use a single device while maintaining a higher level of hygiene. What's more, the otoscope is designed to meet the needs of users of all ages—it works well for adults, seniors, and children alike (special care should be taken with children under 3 years of age).

Regular ear checks—faster detection of health issues

The Earsight Ultra model is perfect not only for cleaning ears but also for regularly checking their condition. Viewing the image on your smartphone makes it easier to observe changes and allows you to quickly spot warning signs before a problem becomes more serious. This helps you better manage daily preventive care—both for yourself and your loved ones.

More accurate assessment of ear health and diagnostic support

Bebird Earsight Ultra not only provides a real-time image preview but also enables a more advanced assessment of the ear canal's condition. The Ear Canal Assessment feature analyzes the image and helps identify potential issues more accurately, making it easier to take further steps. Note: This feature is being rolled out via OTA updates, and its availability may vary by region.

Not just for the ears

Bebird Earsight Ultra is not just an ear device—thanks to dedicated tips, it also allows for examination of the nose and mouth. A single tool lets you check multiple areas, increasing convenience and eliminating the need for multiple separate accessories. It's a practical solution that simplifies daily hygiene and helps you better care for your health at home.

Included

- Otoscope
- Travel case
- Storage case
- Inner tray
- Set of disposable tips with adhesive tip
- Set of disposable tips with rubber tip
- Set of green cleaning tips (tweezers, dome-shaped ear spoon, smooth, rounded metal ear spoon, hard plastic ear tip, metal ear tip with medium-hardness silicone, soft two-tone Q-elastic ear tip)
- Set of cleaning tips in light blue (tweezers, dome-shaped ear scoop, smooth, rounded metal ear scoop, hard plastic ear tip, metal ear tip with medium-hardness silicone, soft two-color Q-elastic ear tip)
- Turquoise cleaning tip set (tweezers, dome-shaped ear spoon, smooth, rounded metal ear spoon, hard plastic ear tip, metal ear tip with medium-hardness silicone, soft two-tone Q-elastic ear tip)
- Pink cleaning tip set (tweezers, dome-shaped ear spoon, smooth, rounded metal ear spoon, hard plastic ear tip, metal ear tip with medium-hardness silicone, soft two-color Q-elastic ear tip)

- Orange cleaning tip set (tweezers, dome-shaped ear spoon, smooth, rounded metal ear spoon, hard plastic ear tip, metal ear tip with medium-hardness silicone, soft two-tone Q-elastic ear tip)
- Ear speculum
- Nose speculum
- Tongue depressor
- Eye dropper
- Tweezers attachment
- Protective cap
- Lens cleaning brush
- USB-A to USB-C charging cable

Manufacturer	Bebird
Model	Earsight Ultra
Camera resolution	20 MP
Video transmission	5G
Sensor	CMOS
Optimal focal length	12.5 mm
Short focal length (EFL)	7 mm
Depth of field (DOF)	5-25 mm
Field of view (FOA)	77°
Frame rate	≥ 25 FPS
Lens type	Slim lens, 4P
Endoscopic technology	Snake-shaped endoscopy technology 3.0
Tip diameter	3.6 mm
Coating material	Medical-grade silicone
Operating time	Up to approx. 80 min
Input current	5 V, 0.5 A
Charging port	USB-C
Protection rating	IP67
Operating temperature	From -10°C to 50°C
Applications	Ear examination, ear cleaning, nose examination, oral cavity examination
