Aprašymas

MOVA AirWave Toothbrush

The MOVA AirWave is a modern sonic toothbrush that combines an ultra-slim design with a diameter of just 17 mm with the advanced Sweep & Sonic cleaning system. With a frequency of up to 35,000 vibrations per minute and 45° brushing, it effectively removes up to 97% of plaque. The lightweight design, weighing only 68 g, fits perfectly in your hand and ensures comfort during daily use, while the elegant stainless steel housing highlights the device's premium character. Also noteworthy are the smart features that support proper brushing and up to 30 days of use on a single charge. The set includes not only the toothbrush but also replacement brush heads, a magnetic wall mount, and a practical travel case.

Ultra-slim premium design

The MOVA AirWave stands out with its exceptionally slim body, just 17 mm in diameter, making it resemble a classic manual toothbrush. Its compact form and weight of only 68 g make the device comfortable for daily use, easily fits in a toiletry bag, and takes up minimal space while traveling. What's more, its casing is made of food-grade stainless steel machined using CNC technology, giving it an exceptionally elegant and modern look. The design also utilizes recyclable PP materials, allowing the product to combine aesthetics with a more environmentally conscious approach. The device's design has been recognized with the prestigious iF Design Award and IDEA Design Award.

Sweep & Sonic Technology - Even More Effective Cleaning

The effectiveness of the MOVA AirWave is driven by its proprietary Sweep & Sonic Dual-Clean system, which combines rapid sonic vibrations (up to 35,000 vibrations per minute) with a wide sweeping motion at a 45° angle. This solution allows for more effective cleaning of the teeth and reaches the interdental spaces and gum line. Technology inspired by the Bass brushing method helps remove plaque and bacterial biofilm without the need to press the brush too hard. Additionally, the compact, next-generation motor is up to 60% smaller and 30% lighter than standard solutions, allowing for a slim design without compromising on power.

Smart features to support proper brushing

The MOVA AirWave toothbrush helps you develop better habits thanks to a range of smart features. The 4-zone detection system monitors your brushing technique and reminds you to switch areas every 30 seconds, making it easier to ensure even cleaning of the entire mouth. A built-in 2-minute timer ensures you brush for the recommended amount of time, and the over-pressure protection prevents gum irritation. User comfort is also enhanced by a 3-second gentle start that minimizes toothpaste splatter when the device is turned on. You can also choose from three modes: Sensitive, Whitening, and Smart.

Interchangeable brush heads for different tasks

The MOVA AirWave toothbrush comes with two brush heads designed for different brushing effects. The Whitening brush head features a diamond-shaped bristle pattern that helps more effectively remove stains and discoloration caused by coffee, tea, and other substances. The Sensitive Care brush head, on the other hand, features ultra-soft bristles that gently clean the gum line and reduce the risk of irritation. Both utilize high-quality DuPont bristles with over 99% antibacterial properties, which are highly durable and effectively reach hard-to-reach areas. Additionally, a soft PP cover reduces the risk of the brush hitting your teeth, improving comfort.

Perfect for home and travel

MOVA AirWave is perfect for both home and travel. The set includes a sturdy stainless steel travel case and a practical storage pouch, so you can conveniently and safely take the toothbrush with you on vacation or a business trip. The device also features an IPX8 waterproof rating, allowing you to use it in the shower without worry. The 550 mAh battery provides up to 30 days of use on a single charge, reducing the need to bring a charger on shorter trips. Recharging is done via a USB-C port, and a magnetic wall mount makes it easy to store the toothbrush in the bathroom.

Included

- Electric toothbrush x1
- Stainless steel travel case x1
- Replacement brush heads x2 (whitening and for sensitive gums)
- USB-A to USB-C cable x1
- Magnetic wall mount x1
- Travel pouch x1
