Pagrindinės savybės

- ✓ Active Optical Cable (AOC) fiber optic cable with USB-C™ male / male gold-plated connections; The standard USB cable is limited to a maximum length of 5m. With the AOC USB Fiber Optic Hybrid Cable you can extend your USB-C™ cable over long distances
- ✓ Suitable for connecting a USB-C™ laptop to a monitor with USB-C™ connection positioned even very far from the notebook; It supports maximum bandwidth of 21.60 Gbps
- ✓ 4-wire fiber optic cable and 7-wire copper conductors; Equipped with TPE sheath; Hollow OD: 4.2mm
- ✓ Thinner, lighter and softer than ordinary copper wire; Extremely resistant to electromagnetic interference, it transmits the image with great clarity, without delays and signal loss; this makes it especially suitable for use in critical environments
- ✓ Fiber optic USB extension cable length: 10 meters; Connection connectors in elegant black metal

Aprašymas

The USB-C™ Active Optical Link Cable uses electrical-to-optical conversion on the cable ends to improve speed performance and exclude electromagnetic interference from the cable, which is capable of supporting much longer distances than standard cable in copper. With an ultra-slim profile and long range, USB AOC breaks the barrier of distance and introduces USB-C™ devices to a whole new range of applications, such as long-distance viewing, security and high-definition surveillance, the control of industrial and medical machines.
Extremely resistant to electromagnetic interference, it transmits the image with great clarity, without delays and signal loss; this makes it especially suitable for use in critical environments. It supports UHD resolutions up to 4K/60Hz and bandwidths up to 21.6Gbps. The diameter of the cable is only 4.2 mm and allows for a small bending radius.
