Pagrindinės savybės

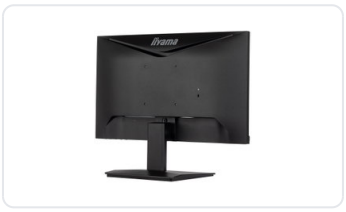

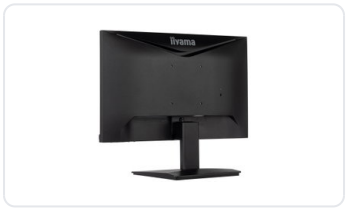

- ✓ IPS Technology
- ✓ Flicker-free + Blue Light
- ✓ ACR
- ✓ Speakers and Headphones
- ✓ Vesa

Aprašymas

Stylish edge-to-edge design makes the ProLite XU2293HS perfect for multi-monitor set-ups. The IPS panel technology offers accurate and consistent colour reproduction with wide viewing angles. High contrast and brightness values mean the monitor will provide excellent performance for photographic and web design.

IPS TECHNOLOGY

IPS technology offers higher contrast, darker blacks and much better viewing angles than standard TN technology. The screen will look good no matter what angle you look at it.

FLICKER-FREE + BLUE LIGHT

The ultimate solution for the comfort and health of your eyes. Flicker-free monitors with the blue light reducer function substantially reduce the strain and fatigue caused by flickering and blue light emittance of regular monitors.

ACR

Contrast Ratio is a measurement of the difference between the darkest black and the brightest white your monitor can display. Advanced Contrast Ratio is a feature that automatically adjusts contrast and brightness of the screen to assure perfect picture quality while watching films and playing games.

SPEAKERS AND HEADPHONES

Playing with friends? Use the integrated high-quality speakers. Don’t want to disturb anybody? Plug your headset into the headphone socket and turn the volume up.

VESA

VESA mount compliance means you can easily mount the display to any mounting that complies with the VESA standard.

Techninė specifikacija

Display	
Display diagonal	54.6 cm (21.5")
Display resolution	1920 x 1080 pixels
Native aspect ratio	16:9
Display technology	LED
Touchscreen	No
HD type	Full HD
Panel type	IPS
Response time	3 ms
Screen shape	Flat
Contrast ratio (typical)	1000:1
Maximum refresh rate	75 Hz
