Aprašymas

High-Fidelity Flight Deck Experience

Precision-engineered 1:1 panel layout designed to closely replicate the real-world Garmin G1000 operating experience. High-quality tactile controls and accurate backlighting provide an immersive avionics experience.

True-to-Size 10.4" IPS Display

Featuring a 10.4" full-color IPS display that mirrors the exact physical dimensions of real-world G1000 systems. With vivid color reproduction and a brightness of up to 500 nits, it delivers exceptional clarity and an uncompromising, immersive flight experience.

DisplayLink Connectivity — No HDMI Required

Utilizing DisplayLink technology for video transmission, this unit eliminates the need for HDMI cables or dedicated GPU ports. It is an ideal solution for advanced cockpit builders managing multi-display setups, as it significantly reduces graphics card load.

High-Precision Tactile Controls

Every rotary control features crisp, well-defined detents, while each button delivers clean, tactile actuation feedback. The integrated 7-way ALPS joystick switch precisely replicates real-world G1000 controls, allowing for intuitive zoom, panning, and selection inputs.

Fully Adjustable Cockpit Lighting

Screen brightness, character illumination, and button-status lighting are all independently adjustable. Furthermore, seamless integration with MOZA Cockpit telemetry-based lighting synchronization ensures a truly cohesive cockpit atmosphere.

Broad Aircraft & Simulator Compatibility

Compatible with all native G1000 aircraft in MSFS 2020/2024 and X-Plane 11/12, including popular third-party add-ons like the COWS DA40 and Kodiak 100. Featuring flexible screen mirroring and fully customizable button mapping, the panel offers broad compatibility and configurable instrument readouts for a wide range of G1000-equipped aircraft.

Techninė specifikacija

Features	
Product type	Flight instrument panel
Material	Polycarbonate (PC), Acrylonitrile butadiene styrene (ABS)
Display diagonal	26.4 cm (10.4")
Compatible products	COWS DA40, Kodiak 100
Compatible games	MSFS 2020/2024, X-Plane 11/12
Weight & dimensions	
Width	304 mm
Depth	66.8 mm
Height	201 mm
Weight	1.17 kg
Packaging content	
Cables included	USB
Packaging content	1.5 m USB 3.0 Type-A Cable, Desktop Stand, Power Adapter
Power	
Input voltage	5 V
Input current	900 mA (USB), 2 A (DC)
Ports & interfaces	
Input connection type	USB-A
