Aprašymas

The MOZA Multi-function Stalks are designed to elevate your driving simulation experience with authentic car-grade components, delivering a true-to-life feel. With 28 programmable switches, including wiper, headlight, and cruise control functions, these stalks cover all your driving needs. The auto-cancelling turn signals mimic real car behavior, adding to the immersion. Compatible with all MOZA bases and select third-party bases, the stalks are easy to install with a clean, sleek appearance thanks to the hidden screw design. Whether mounted in a standard or inverted setup, they provide ergonomic comfort and seamless integration into your racing setup.

Authentic Car-Grade Components

Built with the same components as real vehicles, the stalks, dials, and buttons deliver an authentic feel, providing a truly immersive driving experience.

28 Programmable Switches

The stalks feature up to 28 programmable switches to cover all your driving needs. They are equipped with wiper and headlight controls, plus our unique cruise control functions.

Auto-cancelling Turn Signals

Mimicking real car functionality, the turn signals automatically cancel after turning, truly enhancing the driving simulation experience.

Hidden Screw Design

For a clean and sleek appearance, screws are hidden beneath magnetic plates once installed.

Compatible with All MOZA Bases

The MOZA Multi-function Stalks are compatible with all MOZA bases, from R3 to R21. They include brackets and extension rods for easy installation, supporting both standard and inverted mounting. The stalks can be directly mounted to bases with front mounting holes and adjusted for ergonomic comfort. They also connect directly to a PC and, with the right brackets, are compatible with third-party wheelbases.

Techninė specifikacija

Savybės	
Gaminio tipas	Wheel stalk
Produkto spalva	Juoda
Medžiaga	Aliuminis, Plienas
Svoris ir matmenys	
Plotis	411 mm
Ilgis	127 mm
Aukštis	152 mm
Svoris	700 g
