Aprašymas

Hear Everything in Style

JBL Soundgear Clips open-ear headphones not only deliver great JBL sound, they also don't block out the sounds happening around you. Their all-day comfort and stability stand out, just like their on-trend looks in fashionable colorways with premium translucent finishes. JBL OpenSound Technology with Air Conduction and the SonicArc design for minimal sound leakage and enhanced bass performance mean the low end always sounds full and punchy without distortion, to your ears only. Plus, the four voice mics technology and our proprietary AI-trained algorithm for noise reduction make sure you'll always sound great, even on a blustery day. And if a little drop comes along, JBL Soundgear Clips boasts an IP54 rating. Use the JBL Headphones app to personalize how your calls sound. JBL Soundgear Clips are a wearable icon in the making.

JBL OpenSound technology

The speaker in your JBL Soundgear Clips is precisely angled for minimal sound leakage. Plus, the JBL Soundgear Clips boasts SonicArc design, for extra bass performance and privacy, so that the only person who can hear your music and calls is you. And because it doesn't obstruct your ear canals, you'll have full situational awareness of everything around you while staying socially connected all day long.

Dynamic sound with bass boost

An 11mm dynamic driver with our Adaptive Bass Boost algorithm delivers smooth, rich sound with powerful bass, so they sound as good as they look.

All-day comfort

Soft, flexible and lightweight material covers a flexible memory wire hook, which means you'll wear these all day, every day, without a hint of discomfort. They're also precisely engineered with the optimal clipping strength to stay comfortable and stable on your ear without pinching or feeling too loose.
