Aprašymas

Uperfect UGame J5 M173J15 17.3" 3840*2160 60Hz portable monitor

The Uperfect UGame J5 M173J15 is a versatile 17.3" portable monitor that combines high quality 4K UHD images with a compact design. Designed for users who value mobility and productivity, it will work well for office work as well as gaming or watching movies. With extensive connectivity options and a lightweight chassis, the monitor can be easily connected to a laptop, console or smartphone.

Amazing image quality in 4K resolution

The Uperfect UGame J5 M173J15 monitor offers a resolution of 3840 × 2160, which provides extraordinary image sharpness and detail. With 100% coverage of the NTSC, sRGB and AdobeRGB color space, colors are crisp and realistic. With a brightness of 400 cd/m² and a contrast ratio of 1000:1,

the image remains legible even in bright environments, while the matte screen coating eliminates glare.

Smoothness and comfort

The IPS screen, with a refresh rate of 60 Hz and a response time of 10 ms, provides a smooth display with no lag. Wide 178° viewing angles guarantee excellent image quality regardless of the user's position. The monitor does not support touch, allowing you to focus on the displayed content without the risk of accidental interactions.

Wide compatibility and convenient connections

With two USB-C and mini HDMI ports, the monitor can be easily connected to various devices such as laptops, consoles, smartphones and tablets. A 3.5mm AUX input allows you to connect headphones or external speakers for a better audio experience. The built-in 1-watt speakers offer basic sound quality, enough for everyday use.

Ergonomic design and easy installation

The heavy-duty ABS plastic housing provides lightweight and durable features. The monitor weighs just 1.1 kg, making it easy to transport and use on the go. With VESA 75 × 75 mm mounting holes, it can be mounted on a wall or desk mount, and the included M4 × 4 mm screw set makes installation easy.

Intuitive operation and energy efficiency

The monitor is equipped with an OSD menu, operated by four buttons, allowing adjustment of brightness, contrast and other image parameters. The unit consumes only 14 W of power and is powered by the included PD 30 W adapter. FreeSync technology in "Game Mode" reduces image stuttering during dynamic scenes, which gamers will appreciate.

Included

- 1* Monitor
- 1* Mini HDMI (4K) cable
- 2* C-C cables
- 1* PD30W power adapter
- 1* M4*4 screw set
- 1* User manual
