Pagrindinės savybės

- ✓ Bond high surface energy substrates such as glass, acrylic sheet and metals
- ✓ Get handling convenience, cushioning, damping, and impact resistance
- ✓ Use for applications where a coloured bond line is unacceptable
- ✓ Use for fabricating or die-cutting into various lengths and shapes
- ✓ High aging resistance
- ✓ Creates a permanent seal against water, moisture and more
- ✓ High dynamic stress absorption reduces vibration and impact stress
- ✓ Eliminate drilling, grinding, refinishing, screwing, welding and clean-up
- ✓ Clear material is ideal for joining transparent material

Aprašymas

3M™ VHB™ Tape 4905 is a clear, 0.5mm thick, acrylic VHB tape. It is colourless making it ideal for bonding transparent materials or for applications where a coloured bond line is unacceptable.

Get handling convenience, cushioning, damping, and impact resistance when bonding transparent materials with 3M™ VHB™ Tape 4905. Our strong, clear, acrylic double sided sticky tape bonds high surface energy substrates such as glass, acrylic sheet and metals. It's ideal for applications where a coloured bond line is unacceptable. It also offers a lower peel, tensile and shear performance than most other VHB tapes, due to its inherent softness.

Techninė specifikacija

Features

Product type	Mounting tape
Product colour	Transparent

Length	66 m
Proper use	Indoor & outdoor
Material	Acrylic
Suitable for materials	Glass, Metal
Easy to use	Yes
Waterproof	Yes
Weight & dimensions	
Width	25 mm
Thickness	0.5 mm
Packaging content	
Quantity	1
Matmenys ir svoris	
Svoris	1,06kg
