Aprašymas

VITURE Ultra USB-C Adapter

Whether you’re gaming in the evening, watching a movie on a huge virtual screen while traveling, or using multiple screens at once—the VITURE Ultra USB-C adapter is perfect for any of these situations. It’s compatible with all VITURE XR headsets, including the Luma Ultra and The Beast, and fast pass-through charging at up to 65 W means you can forget about having to pause your gaming, movie-watching, or work.

Play Even Longer

Long gaming sessions with your favorite games or watching movies for hours on end don’t have to mean constantly checking your battery level. The adapter supports fast pass-through charging, providing up to 65 W of input power and delivering up to 59 W to the connected device. This lets you use your headset longer without interrupting your gameplay, movie-watching, or work. Another advantage is the clearly labeled ports, which make setup quick and hassle-free.

Even More Possibilities for Handheld Consoles

The VITURE Ultra adapter opens up entirely new possibilities for handheld console users. When paired with a compatible power bank that supports the USB-C Power Delivery with at least 45 W of power, it allows you to connect a Nintendo Switch or Nintendo Switch 2 directly to the VITURE XR headset and enjoy gameplay on a large virtual screen without the need for additional adapters. The accessory also works with the Steam Deck, ROG Ally X, Legion Go, and other devices equipped with a USB-C port supporting DP Alt Mode. For the ROG Ally console, Turbo Mode support is also available thanks to USB-C Power Delivery with up to 65 W of power.

Discover the full potential of SpaceWalker on iOS devices

When connected to a compatible iPhone with a USB-C port, the adapter provides access to all features of the SpaceWalker environment, including 3DoF head tracking, instant switching between 2D and 3D modes, multi-screen support, spatial content playback, and enhanced VR content playback. This makes watching movies, browsing content, or working in a virtual space even more immersive. Please note that this solution is

compatible with iPhone 15 series models and newer; however, the iPhone 16e and iPhone Air do not support external video output.

Convenience no matter what device you’re using

Whether you’re using a smartphone, a handheld console, or XR glasses—the adapter is designed to let you switch seamlessly between different use cases. Support for Bluetooth 5.4, a USB-C port, and compatibility with DP 1.4 and video resolutions up to 4K at 60 Hz make this device ideal for gaming, watching movies, or using augmented reality apps. Its compact design lets you keep it close at hand, no matter where you’re going.

Manufacturer	VITURE
Model	Ultra
