Pagrindinės savybės

- ✓ Combines copper and fibre optic cable for a hybrid, long distance HDMI connectivity solution
- ✓ Supports resolutions up to 4K@120Hz, 8K@60Hz
- ✓ HDR formats including Dolby Vision and HDR10+
- ✓ Flexible and robust cable structure for any kind of installations
- ✓ 2-Year Warranty

Aprašymas

Lindy's range of Fibre Optic Hybrid cables are a professional solution for extending HDMI signals over longer distances. Combining the flexibility and high EMI and RFI resistance of fibre optic cable with standard copper cabling, these hybrid cables are ideal for use in critical AV setups, commercial displays or high-performance residential installations.

The internal technology provides uncompressed amplification of the HDMI signal, allowing long distance extension of HDMI 8K content that is simply not possible with passive cables.

With 48Gbps bandwidth, these cables support HDMI 2.1 resolutions up to 3840x2160@120Hz, and 7680x4320 / 10240x4320@60Hz. Content can be viewed with incredible detail and clarity at higher refresh rates for optimum viewing of movies, graphics or imagery.

As well as static HDR, HDMI hybrid cables also brings further support for dynamic HDR formats such as Dolby Vision and HDR10+. This provides

every moment of content, whether scene by scene or even frame by frame, with a much wider colour gamut based on the BT.2020 colour space, higher peak brightness and deep blacks for optimum contrasts as well as greater depth of colour. This is essential for the transmission of VOD content including TV shows and movies, as well as VR and video games, ideal in eSports, retail setups and superior home cinema installations.

Whether used with residential gaming setups or premium eSports events, these AOC cables also provide extensive features for enhancing the gaming experience, whilst also benefitting fast moving sports and entertainment content.

VRR (Variable Refresh rate) reduces and eliminates lag, judder and frame tearing for a much fluid gameplay experience whether it's for quick reactions in an action game or scoring a last minute winner in sports games. ALLM (Auto Low Latency Mode) further helps this by enabling the ideal latency setting for smooth transitions of content. QFT (Quick Frame Transport) also assists with ensuring low latency, by transporting frames at a higher rate which can prove essential with real time VR gameplay. These features also benefit various other industries such as sports bar distribution, medical facilities, experiential displays or news broadcasting.

Please Note: eARC/ARC and CEC functions are not supported for lenghts over 20m.We can make cables up to 200m on request, contact us for quotations.

Techninė specifikacija

Features	
Cable length	50 m
Connector 1	HDMI Type A (Standard)
Connector 2	HDMI Type A (Standard)
Connector 1 gender	Male
Connector 2 gender	Male
Product colour	Black
Connector 1 form factor	Straight
Connector 2 form factor	Straight
HDMI version	2.1
Supported graphics resolutions	3840 x 2160, 7680 x 4320
Data transfer rate	48 Gbit/s
Maximum refresh rate	120 Hz
AWG wire size	23
Cable material	Fiber optic
Cable type	Round cable
Operational conditions	
Operating temperature (T-T)	-10 - 60 °C
Storage temperature (T-T)	-20 - 70 °C
Certificates	
UN number	5
Certification	CE, UKCA, FCC, RoHS, REACH & California Proposition 65

Weight & dimensions	
Cable diameter	4.4 mm
Connector 1 dimensions (WxDxH)	20.2 x 50.5 x 11 mm
Connector 2 dimensions (WxDxH)	20.2 x 50.5 x 11 mm
Matmenys ir svoris	
Svoris	1,18kg
