Aprašymas

With the Airy Fryer 6L air fryer you can fry any dish in large quantities, using just a spoonful of oil to obtain healthy and tasty frying at the same time. Thanks to the large 6 L removable basket, with Ariete's Airy Fryer 6L you can cook up to 2.5 kg of fries at once! French fries, but not only, also croquettes, fish, meat and many other breaded foods, both frozen and ready to fry, and fresh and freshly breaded, thanks to 8 pre-set programs. How does the air fryer work? The air fryer cooks thanks to the high temperature air, adjustable from 35°C up to 200°C, which circulates at maximum speed and 360° inside the cooking chamber and guarantees uniform distribution of heat inside. It is precisely the hot air that allows for homogeneous cooking of the dishes and the formation of a crunchy crust on the outside, which has nothing to envy to traditional frying. Thanks to the hot air, there will be no need to add a lot of oil to obtain tasty fried food, because a simple spoonful will suffice, in this way you will bring lighter but tasty food to the table for the whole family. From the large digital touch screen panel you can adjust cooking times, programs, temperatures and timers. Inside there is a tray for crunchier and tastier recipes. Airy Fryer 6L has a transparent basket to check cooking like a real oven: frying is right

in your hands!The Airy Fryer 6L air fryer is easy to clean thanks to the non-stick basket with grill and has a low environmental impact, because it does not produce waste oil, which is one of the most difficult to dispose of waste in circulation.
