Sharp image

From any angle

Experience the vibrant visuals with a 1ms fast response time, which reduces reverse ghosting and input lag. In addition, the IPS panel allows you to enjoy these stunning images clearly from a wide angle (up to 178 degrees).

Feel true-to-life colour

This monitor supports a wide color gamut, sRGB 99% (Typ.), and VESA DisplayHDR™ 400, reproducing high-fidelity colors for gamers to see the dramatic colors the game developers intended regardless of the battlefield.

Technology for flawless gaming

Enjoy the perfect graphic with reduced tearing, stuttering, or jittering caused by differences in the hardware and software specification by synchronizing through NVIDIA® G-SYNC® Compatible, AMD FreeSync™.

Gamer-centric design

Enhance your gaming experience with a 3-side virtually borderless design for an immersive viewing. The adjustable base, which supports tilt, height, and pivot, helps you play games more comfortably.

Award winning gaming GUI

Gamers can use On-Screen Display and OnScreen Control to easily customize the setting from adjusting basic monitor options to registering 'User Defined Key' that user can set the shortcut.
