PRE-BREWING

Unique body and taste for every espresso thanks to the pre-brewing that implies few seconds of pause between the first shower of hot water and the actual brewing.

REMOVABLE BREW GROUP

The heart of the machine, it doses and tamps the right amount of ground coffee for all your espressos. It allows a thorough cleaning of the machine as it is removable and can be washed under the tap and reinserted easily at its place.

GROUND COFFEE OPTION

In addition to the coffee beans option, an easy solution to brew different ground coffee blends, included decaffeinated.

QUICK HEAT BOILER
