Aprašymas

Welcome to the Curve

Superbly Synced

Adaptive-Sync technology³, and up to a 240Hz refresh rate^{1,2}, eliminate screen tearing for a smooth, tear-free experience in games, during video playback and is NVIDIA® G-SYNC® and AMD FreeSync™ compatible³.

Range of Resolutions

Choose the resolution that fits your style of play. Whether you prefer the high-refresh FHD or the crisp image quality of WQHD – there's a perfect option available.

More Play, Less Blur

The monitor's response time is able to be pushed up to 1ms Visual Response Boost (VRB) for less noticeable blur (ghosting) during fast-paced gameplay – making images as sharp as possible.

Black Boost

Choose from 11 Black Boost options to optimize the lighting and shadows exactly for the type game you're playing. Go with deeper levels for all-out immersion or lighten the hidden areas where opponents may lay in wait.

View in Comfort
