Aprašymas

HIGH-PERFORMANCE STORAGE SOLUTION FOR DEMANDING ENVIRONMENTS

The Ubiquiti UNAS Pro 4 is engineered to meet the rigorous demands of large-scale file storage and sharing. With four 2.5/3.5" HDD bays and two M.2 NVMe SSD cache slots, this 1U rack-mount NAS delivers exceptional performance, ensuring faster access and lower latency for critical applications. The inclusion of high-availability 10 Gbps networking capabilities further enhances its efficiency, making it an ideal choice for businesses that require reliable and rapid data retrieval.

ROBUST DESIGN AND VERSATILE CONNECTIVITY OPTIONS

Constructed from durable SGCC steel, the UNAS Pro 4 is designed for longevity and stability in rack environments. Its compact dimensions of 442.4 x 400 x 43.7 mm allow for easy integration into standard 19" racks, supporting depths from 600 mm to 1066 mm. The device features multiple networking interfaces, including two 10G SFP+ ports and one GbE RJ45 port, providing flexible connectivity options to accommodate various network configurations and ensuring seamless integration into existing infrastructures.

ADVANCED DATA MANAGEMENT AND BACKUP CAPABILITIES

The UNAS Pro 4 supports a variety of RAID configurations, including RAID 5, RAID 6, and RAID 10, allowing users to optimize data redundancy and performance based on their specific needs. With built-in file encryption and support for remote backups to cloud services such as Google Drive and Amazon S3, this NAS ensures that critical data remains secure and accessible. Additionally, features like snapshots and Time Machine backup support provide users with comprehensive data management tools to safeguard their information.

EFFICIENT POWER MANAGEMENT AND COMPLIANCE STANDARDS

Designed with power efficiency in mind, the UNAS Pro 4 operates with a maximum power consumption of 150W while supporting power redundancy for enhanced reliability. Its universal AC input and DC input options ensure compatibility with various power sources. Furthermore, the device is NDAA compliant and certified by FCC, CE, and IC, making it suitable for deployment in sensitive environments where compliance with regulatory standards is essential.
