Pagrindinės savybės

- ✓ Infinity Mirror ARGB Cooling Block
- ✓ Parallel Fin Radiator Design for Improved Heat Transfer
- ✓ 360-Degree Rotatable CHIEFTEC Logo
- ✓ Snap-On Interlocking PWM Fans

Aprašymas

The CHIEFTEC ICEBERG is an All-In-One CPU cooler, featuring a 240mm water-cooling radiator and Snap-On interlocking PWM fans that ensure excellent heat dissipation. With fan speeds reaching up to 2200 rpm, it provides efficient cooling for a wide range of CPUs. The innovative parallel fin radiator design maximizes the contact area between water tubes and radiator fins, while maintaining a high surface area exposed to the cooling airflow, thereby enhancing overall thermal transfer and heat dissipation. The ICEBERG includes an infinity mirror ARGB cooling block and a 360-degree rotatable CHIEFTEC logo. Installation is hassle-free thanks to the robust braided steel tubing and the convenient mounting clip kit. The snap-on interlocking PWM fans minimize the number of cables ensuring an easy and clean build. The ICEBERG is your trusted, reliable choice for pushing your CPU to maximum performance, while ensuring optimal thermals and noise levels.

Techninė specifikacija

Matmenys ir svoris	
Matmenys (I × P × A)	15,00cm × 35,00cm × 23,00cm
Svoris	2,09kg
