Aprašymas

Blitzwolf AS-22 45W amplifier

The Blitzwolf AS-22 audio amplifier is equipped with modern chips that provide high-end sound. The Bluetooth version 5.0 module is responsible for a stable signal up to 5 meters. The product is also equipped with 3.5mm AUX, RCA and USB ports, and is easy to operate with the included remote control and the control panel on the amplifier.

Stereo sound

The amplifier has been designed with high sound quality in mind. Moreover, the use of 2PCS chips makes you feel like you're at a concert. As a result, you can enjoy crystal clear, richly detailed sound.

Several connection possibilities

The Blitzwolf AS-22 uses Bluetooth 5.0, which translates into a fast and stable connection of up to 5 meters. What's more, the product features 3.5mm AUX, RCA or USB ports. It also supports FM radio. You can successfully connect the amplifier to a smartphone, laptop, TV or computer.

User-friendly

Operating the device will not cause you any problems. The knobs located on the front allow you to adjust volume, treble and bass. On the other hand, you can use the buttons to skip and rewind songs or enable loop playback. You'll also find a remote control included. The LED display, meanwhile, will provide you with information about the device's operation.

Included

- amplifier
- remote control
- power supply
