Aprašymas

OPEN RACK SERVER RACKS OR01 SERIES from Lanberg

Lanberg's Open Rack series of server racks is an excellent, well-thought-out solution for professional ICT environments where secure storage and management of large amounts of server equipment is essential. The rack's design allows for efficient use of space, and its solid workmanship ensures durability and long-lasting use. Server racks are available in a variety of sizes and configurations, allowing for perfect customization.

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

Thanks to high-quality materials and precise design solutions, the Open Rack series guarantees optimal working conditions for server equipment and easy access and management of ICT infrastructure. In addition, the aesthetically pleasing design and the ability to personalize add-ons and mounting components make Lanberg Open Rack an ideal choice for both large enterprises and smaller companies looking for a reliable and functional solution for their IT infrastructure.

Adjustable mounting depth

Adjustable mounting depth in Open Rack cabinets is a flexible solution that allows you to freely adjust the range from 430 mm to 590 mm. This makes it easy to install standard servers and switches as well as more advanced equipment. The simple adjustment procedure - requiring only the tightening of screws in the selected position - significantly speeds up the preparation and subsequent modifications of the rack, saving time and minimizing downtime.

The ability to adjust the depth also facilitates cabling planning and improves cooling, which has a positive effect on the stability and longevity of equipment. As a result, Open Rack cabinets become extremely versatile and future-proof, guaranteeing optimal space utilization, as well as bringing cost benefits in the long run.

Easy installation

Thanks to the clever design and ease of installation of our Open Rack Series server racks, you save valuable time and effort by focusing on your key tasks. No matter your level of experience, you can quickly and efficiently organize your data center or server network.

Our Open Rack comes with clear paper installation instructions. These step-by-step guide you through the entire process, ensuring you fully understand each step.

Solid workmanship

Focusing on reliability and robustness, Lanberg Open Racks are a guarantee of excellent quality. Designed with attention to every detail, our racks are distinguished by exceptional durability and precision workmanship, regardless of the application.

High-quality cold-rolled steel, from which the elements of our ICT racks are made, ensures not only durability, but also precision and robustness of construction.

Each of our Open Racks is characterized by exceptional solidity of workmanship, which is the result of an advanced manufacturing process , providing excellent results both aesthetically and functionally.

600kg payload

Open Rack Lanberg is a robust rack designed for professionals who need a reliable solution for storing equipment. Our rack features a load capacity of 600 kg, allowing users to store even the heaviest equipment.

With reinforced vertical rails and equipped with sturdy feet, Lanberg's Open Rack not only provides unparalleled load capacity, but also stability and security for stored equipment. In addition, the base of the frame has been reinforced, which emphasizes the durability and reliability of this product. Lanberg Open Rack is the ideal solution for anyone who needs assurance that their equipment will be stored safely and efficiently.

Techninė specifikacija

Features	
Rack capacity	18U
Type	Freestanding rack
Maximum weight capacity	600 kg
Product colour	Black
Frame type	Open
Back door style	Open
Front door style	Open end
Castor wheels	Yes
Assembly required	Yes
Weight & dimensions	
Width	600 mm
Depth	800 mm
Height	1051.2 mm
Weight	23 kg
Mounting depth (min)	43 cm
Mounting depth (max)	59 cm
Packaging data	
Screws included	Yes
Manual	Yes
Matmenys ir svoris	
Matmenys (I × P × A)	90,00cm × 32,00cm × 17,00cm
