Aprašymas

The DIGITUS UPS DN-170064-LCD-B is designed to provide reliable backup power with a capacity of 800 VA. This line interactive UPS features a clear LCD display, allowing for easy monitoring of power status and settings. With a power output of 480 watts and support for two CEE 7/7 connectors, it offers flexible connectivity options for essential devices. Equipped with a single 9 Ah battery, this UPS ensures your equipment remains operational during power interruptions. Its external form factor allows for convenient placement, making it an ideal solution for both home and office environments. The DIGITUS UPS combines functionality with efficient design, keeping your devices protected from unexpected power fluctuations.
