Aprašymas

Uperfect UGame C2 16" 2560x1600 120Hz portable monitor

The Uperfect UGame C2 is a 16-inch portable monitor with a high resolution of 2560×1600 and a refresh rate of 120 Hz (hertz, the number of image refreshes per second). The device is designed for smooth images, ease of use and convenient transportation. Thanks to its compact size and sturdy aluminum casing, it will be suitable for both gaming applications and work such as travel.

High image resolution

The monitor offers a resolution of 2560×1600, which ensures high image detail. The refresh rate of 120 Hz reduces blurring in dynamic scenes, which is important for both gaming and work. Brightness of 350 cd/m² (candelas per square meter, a unit of brightness) and 100% coverage of the sRGB (standard RGB color space - Red, Green, Blue, or Red, Green and Blue) color space and 74% NTSC (National Television System Committee, a color standard) guarantee clear colors and good color reproduction.

Wide viewing angles and matte IPS matrix

With an IPS matrix (In-Plane Switching, a liquid crystal technology that provides wide viewing angles and better colors), the monitor offers a wide 178° viewing angle, which preserves image quality regardless of the user's position. The matte finish of the screen reduces glare and improves comfort in bright environments.

Compact housing and aluminum construction

The aluminum construction increases resistance to mechanical damage. The overall dimensions are 344.68 mm (millimeters) (W) × 215.42 mm (H), making the monitor easy to carry. In addition, the device is powered by a USB-C (Universal Serial Bus Type-C, a universal connector for data and power) port cable (included).

Functional connectors and built-in speakers

The monitor features 2 USB-C ports, as well as HDMI (High-Definition Multimedia Interface, an interface for high-definition video and audio) (mini HDMI) and AUX 3.5mm (auxiliary, auxiliary audio connector) connectors. This makes it possible to connect both computers and consoles. Built-in 2×1W stereo speakers offer basic sound reinforcement without the need for external audio equipment.

Ready to go with a set of accessories

Among the included accessories are a MINI HDMI cable (4K, resolution of approximately 3840 × 2160 pixels), 2 USB-C cables, and a leather case for safe storage and transportation. The monitor supports the VESA standard (Video Electronics Standards Association, a standard for mounting video devices), which allows installation on a mount.

Included

- portable monitor
- mini HDMI (4K) cable
- USB-C to USB-C cable x2
- PD 18W power adapter
- screws x2 M3 4 mm
- leather case
- user manual
