Aprašymas

The **Mikrotik RB450Gx4** is a high-performance router designed for demanding networking environments. With support for **IEEE 802.3af** and **IEEE 802.3at** communication standards, this device ensures reliable power over Ethernet capabilities, making it an ideal choice for various applications. Its compact design, measuring **90 mm** in width and **115 mm** in depth, allows for easy integration into existing setups without occupying excessive space.

Equipped with a powerful **716 MHz** processor and **1024 MB** of internal memory, the RB450Gx4 delivers exceptional performance for both small and medium-sized networks. The device supports **Gigabit Ethernet** interfaces, ensuring high-speed data transfer rates and efficient handling of multiple connections. Additionally, it features a **MicroSD** (TransFlash) card slot for expanded storage options, allowing for enhanced functionality and flexibility.

The **wired connectivity** technology of the RB450Gx4 guarantees stable and secure connections, making it suitable for various networking tasks. With a voltage range of **10 - 57 V**, this router can operate effectively in diverse environments, providing versatility for different installation scenarios. Its robust design and reliable performance make it a preferred choice for network professionals.

In summary, the **Mikrotik RB450Gx4** is a versatile and powerful networking solution that meets the demands of modern connectivity. With its advanced technical specifications and user-friendly features, this model stands out in the market, making it an excellent addition to any network infrastructure. Whether for home use or business applications, the RB450Gx4 is engineered to deliver exceptional results.

Techninė specifikacija

Matmenys ir svoris	
Matmenys (I × P × A)	14,00cm × 14,00cm × 2,00cm
