Aprašymas

Blitzwolf BW-S33 420W 8-Port Charger

The Blitzwolf BW-S33 420W charger is a versatile charging station that allows you to power multiple devices with varying power requirements simultaneously. It features 8 ports and a total output of 420W, allowing you to charge laptops, smartphones, and accessories all in one place. Thanks to GaN technology and intelligent power management, the device automatically adjusts the power output to match the connected devices.

High power and 8 ports for simultaneous charging

The BW-S33 model features 6 USB-C ports and 2 USB-A ports, offering great flexibility for everyday use. The two main USB-C1 and USB-C2 ports support up to 140 W via the PD 3.1 standard, enabling fast laptop charging. The remaining USB-C ports offer up to 100 W, making them capable of handling more demanding devices as well. The USB-A ports reach up to 60 W, which works well for charging older or less demanding devices.

Smart Power Management

The charger is equipped with a Smart IC chip that automatically detects connected devices and adjusts charging parameters. Dynamic power allocation technology allows energy to be distributed among ports in real time. This ensures each device receives the appropriate amount of power without overloading the system. As a result, it is possible to safely charge even several devices simultaneously.

GaN technology and compact design

The use of GaN (gallium nitride) technology increases efficiency while reducing the device’s size. The charger generates less heat and operates more stably even under heavy load. As a result, this model remains more compact than traditional solutions with similar power output. It’s a practical solution for the office or workspace.

Clear display and charging control

The device is equipped with a color screen that shows the current charging parameters for each port. The user can check in real-time how much power is being delivered to individual devices. The touch panel allows for easy control of the display and quick access to information. This solution allows for better control of the charging process and energy management.

Wide compatibility

The charger supports popular fast-charging standards such as PD 3.1, PD 3.0, QC 4.0+, QC 3.0, AFC, FCP, and SCP. This makes it compatible with a wide range of devices—from laptops and tablets to smartphones and headphones. It can also be used with handheld consoles or other mobile devices. It is a versatile solution for various applications.

Included

- charger
- AC power cable

Manufacturer	Blitzwolf
Model	BK-126D
Input	AC 100–240V, 50/60Hz, 2.5A (max.)
Output USB-C1 / USB-C2	5V⎓ 3A, 9V⎓ 3A, 12V⎓ 3A, 15V⎓ 3A, 20V⎓ 5A, 28V⎓ 5A (max. 140 W)
PPS (USB-C1 / C2)	3.3–21V⎓ 5A (max. 105 W)
USB-C3 / C4 / C5 / C6 Output	5V⎓ 3A, 9V⎓ 3A, 12V⎓ 3A, 15V⎓ 3A, 20V⎓ 5A (max. 100 W)
PPS (USB-C3–C6)	3.3–21V⎓ 5A (max. 105 W)
USB-A1 / USB-A2 output	5V⎓ 3A, 9V⎓ 3A, 12V⎓ 3A, 20V⎓ 3A (max. 60 W)
Total power when using all ports simultaneously	105W + 65W + 65W + 65W + 60W + 60W = 420 W
Maximum total power	420 W
Dimensions	94 × 88 × 87 mm
Weight	approx. 583 g
Housing material	PC + ABS (fire-resistant, V0 standard)
