Aprašymas

SMALLRIG LP-E6NH Battery Charger

The SmallRig LP-E6NH Camera Battery and Charger Kit 3821 is a set consisting of two LP-E6NH lithium-ion batteries, each with a capacity of 2040 mAh, and a dual charger. Each battery has a voltage of 7.2 V and an energy capacity of 14.69 Wh, and the built-in decoding circuit ensures proper operation with compatible cameras without displaying unwanted error messages. The charger allows you to recharge both batteries simultaneously, and the built-in LCD screen displays voltage, current, and the recharged capacity.

Compatibility with Canon Cameras

SmallRig batteries have the same dimensions as the original batteries of this type, so they fit properly into the camera's battery compartment. The kit is compatible with, among others, the following Canon models: EOS 5D Mark II, 5D Mark III, 5D Mark IV, 6D, 6D Mark II, 7D, 7D Mark II, 60D, 60Da, 70D, 80D, 90D, XC10, XC15, 5DS, 5DSR, R, R5, R6, R5C, R7, and R6 Mark II. The list of compatible models is more extensive, so before purchasing, it's worth checking whether the specific device uses LP-E6NH batteries. The kit is not compatible with the Canon EOS R5 Mark II.

Charging Two Batteries Simultaneously

The dual charger allows you to charge two batteries simultaneously, enabling you to prepare backup power sources more quickly before shooting or recording. Its output is 8.4 V / 1000 mA whether charging one or two batteries. The LCD screen lets you monitor the voltage, current, and amount of energy supplied in real time, making it easier to control the charging process.

Compact and Durable Design

The battery casings are made of ABS and PC plastics, and their matte finish ensures a comfortable grip and increases durability during everyday use. A single battery measures approximately 56.7 × 38.4 × 21 mm and weighs about 78 g, while the charger measures 90 × 56 × 27 mm and weighs approximately 65 g. Its compact size makes it easy to store the set in a camera bag or backpack, keeping a power reserve on hand while working in the field.

Included in the set

- LP-E6NH battery x 2
- Battery protective cover x 2
- Dual charger with built-in USB-A cable
- User manual

Manufacturer	SmallRig
Model	3821
Battery type	Lithium-ion
Battery model	LP-E6NH
Battery capacity	2040 mAh
Battery voltage	7.2 V
Energy	14.69 Wh
Maximum battery charging voltage	8.4 V
USB-C input	5 V / 2.1 A min.
USB-A input	5 V / 2.1 A min.
Charger Output with One Battery	8.4 V / 1000 mA
Charger Output with Two Batteries	8.4 V / 1000 mA
Operating Temperature	0°C-40°C
Dimensions of a single battery	56.7 × 38.4 × 21 mm
Charger dimensions	90 × 56 × 27 mm
Weight of a single battery	approx. 78 g
Charger weight	approx. 65 g
Material	ABS + PC
Compatibility	devices that use LP-E6NH batteries
