Pagrindinės savybės

- ✓ Wired
- ✓ Internal Component for: NAS
- ✓ 64000 Mbit/s

Aprašymas

The QXP-3X8PES PCIe card is designed for expanding the capacity of a QuTS hero or QTS NAS by connecting it to QNAP TL PCIe Interface JBOD. Multiple JBODs can be daisy-chained via high-speed cables to scale up to petabyte-level storage to handle exponential data growth caused by archiving/backing up surveillance recordings, RAW multimedia files, big data, and virtualization applications.

Expand up to petabyte-scale capacity

A NAS with a QXP-3X8PES can be daisy-chained with multiple TL PCIe Interface JBODs (TL-R1200PES-RP, TL-R1600PES-RP and TL-R2400PES-RP), which supports SATA HDDs. This provides the potential to store up to petabyte-scale capacity.

Techninė specifikacija

Ports & interfaces

Connectivity technology Wired

Network

Maximum data transfer rate 64000 Mbit/s

Design

Internal Yes

Component for NAS

Operational conditions

Operating temperature (T-T) 0 - 40 °C

Storage temperature (T-T) 20 - 70 °C

Operating relative humidity (H-H) 5 - 95%

Storage relative humidity (H-H) 5 - 95%
