Pagrindinės savybės

- ✓ PC/Server 32 GB DDR4
- ✓ 288-pin DIMM
- ✓ 1.2 V
- ✓ ECC

Aprašymas

Random Access Memory (RAM) is a type of hardware that your computer uses to store information. Adding memory is one of the most cost-effective ways to improve your computer's performance.

Dell™ Branded memory offered in the Memory Selector has gone through rigorous quality assurance and quality control testing to ensure it will work with your specific Dell System so it is fully compatible and supported by Dell. Getting unqualified or generic products from other vendors can cause downtime that can seriously cost your business and put your entire system at risk.

Memory offered now may differ in speed from the original system memory but has been qualified to work in the system. When mixed, the memory will perform at the lowest speed populated or the highest speed allowed by the system.

Techninė specifikacija

Features	
Internal memory	32 GB
Internal memory type	DDR4
Component for	PC/Server
Memory form factor	288-pin DIMM
