Aprašymas

The BlueWalker PowerWalker NMC Card NG is designed for robust network management with a remote management adapter that streamlines connectivity and monitoring. With its plug-in module form factor, this network adapter ensures compatibility across various Ethernet cabling types, including 1000Base-T, 10Base-T, and 100Base-TX. The card operates efficiently in a range of environmental conditions, handling temperatures from 0°C to 40°C and humidity levels between 5% and 90% RH. It provides numerous secure features such as firewall protection, hardware encryption, and support for a secure boot, ensuring that network safety is prioritized.
Equipped with a user-friendly HTML5 interface and compatibility with various remote management protocols including SSH, MQTT, SNMP, Modbus TCP, and RestAPI, the PowerWalker NMC Card NG enhances network interactions for better performance and administration. The presence of status indicators makes it easy to monitor boot states and link activity, providing users with clear visibility into network operations and functionality. This network adapter is an essential tool for reliable and efficient network management.

Techninė specifikacija

Matmenys ir svoris	
Matmenys (I × P × A)	18,00cm × 17,00cm × 6,00cm
Svoris	0,14kg
