- ✓ USB Type-C® Power Delivery input up to 100 W
- ✓ Handy Off-screen button to instantly turn off your display
- ✓ Integrated USB-C® cable (20 cm)
- ✓ Perfect for users that work in Co-working spaces or are often on the move

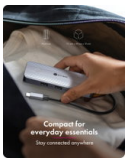

Aprašymas

Instant screen control
Push the button!

With a dedicated button built into the dock, you can quickly pause your screen with a single press. It’s a simple way to protect your privacy when someone walks by or when you step away from your desk. No need to dig through settings or menus. One touch is all it takes to hide your display and reduce distractions. Small feature, big difference.

Compact hub for everyday essentials
Size does matter after all

Spade Dock 4081 gives you all the ports you actually need in one small device. It’s perfect for connecting a screen, a few accessories, and charging your laptop at the same time. This makes it ideal for travel, hot desks, or minimalist setups. You carry less gear and still stay fully connected. Sometimes less is indeed more.

One cable, less mess
For an ASMR setup

Life is difficult enough. But handling your setup does not have to: keep your setup clean by handling data, display, and power through a single connection. You plug in once and your entire workspace is ready to go. No more messing around with multiple cables just to get started. This makes switching between home, office, and travel setups much easier.

Smooth 4K display output
Your eyes deserve it

Enjoy clear and sharp visuals when connecting an external screen. Watching videos, editing content, or giving presentations is more comfortable on a larger display. The experience stays smooth and responsive, even at higher resolutions. You work beyond a laptop screen? Spade Dock 4081 is your upgrade.

Fast connections for daily work
Work hard, play hard

Spade Dock 4081 is built for real work, not just occasional use. File transfers feel smooth and everyday tasks stay efficient. All your essential devices connect quickly and easy. External drives, keyboards, mice, and other accessories respond without delay.

Built for life on the move
No wear 'n tear

The aluminum housing gives the dock a solid feel and helps it handle daily wear and travel. It’s slim to slip into a bag, but sturdy enough to use every day. The design also helps keep things running cool during longer sessions. It’s made to travel as much as you do.

Techninė specifikacija

Ports & interfaces	
Connectivity technology	Wired
